

French I Review

Les adjectifs

Spring - Just a part of what

Adjectives in French must agree in **number** as well as **gender**. That is, if the noun is singular, then the adjective describing it must also be singular. If the noun is plural, then the adjective must also be plural.

will be on the final. Also refresh: faire, -ir verbs, articles (un, une, deux, le, la, les), vocab. (all year), de la, du, des, de l', time, #'s...

To make an adjective plural...

1. add -s

exemple: grand > grands

Most adjectives have four forms:

	singular	plural
masculine	grand	grands
feminine	grande	grandes

If a group contains both masculine and feminine nouns, use the masculine plural form.

exemple: Les garçons et les filles sont grands.
(The boys and the girls are tall.)

Fill in the blanks with the correct form of the underlined adjective in each phrase. **Remember:** Some adjectives change form because of gender.

1. small girls = les _____ filles
2. interesting books = les livres _____
